### PULLOUT SHELF SYSTEMS

FlowSell™ PullOut Shelf Systems are so flexible that they can be used on free standing gondolas, walls or even in cupboards.

No other company's offer is as versatile to efficiently store and dispense medications.

**Use in Hospital Pharmacies and Medication Rooms for:**

- Capsules
- Tablets
- Liquids
- Other medications

You can choose from two PullOut Shelves

### FLOWSELL™ PULLOUT TRAYSHELF

A highly popular metal shelf opening on quality drawer runners. Fitted with the unique polycarbonate FastFit Dividers and clear Shelf Fronts for quick assembly and ease of operation.

PullOut TrayShelf/SlipShelf Sizes

Depth	Width
305mm	600 or 915mm
405mm	600 or 915mm
505mm	600 or 915mm
Medications/Shelf	
600mm	8 to 9
915mm	12 to 13

#### Key Benefits:

- Push pad opening
- Self locking
- Adjustable dividers
- Easy clean
- Rotates stock
- Drugs fully visible

### FLOWSELL™ PULLOUT SLIP SHELF

A similar PullOut Shelf but with a polyethylene slip mat base that allows dust to pass through the shelf. The SlipShelf® uses the same quality drawer runners, Shelf Fronts and FastFit Dividers.

#### Key Benefits:

- Push pad opening
- Self locking
- Dust free
- Improved hygiene
- Superior gravity feed

### DISPENSA PULLOUT WALL UNIT

A Single Sided Gondola with up to eight or nine FlowSell™ PullOut TrayShelves or SlipShelves.

	Post Height	305		Depth (Overall)		505	
	2260mm	407mm	507mm	405	507mm	607mm	
	1 Bay		Width (Overall)		4 Bay		
	2 Bay		3 Bay				
System 600	635mm	1236mm	1840mm	2440mm			
Medications *	75	150	225	300			
System 915	950mm	1866mm	2784mm	3700mm			
Medications *	110	220	330	440			

\*Standard eight PullOut TrayShelves or SlipShelves

### DISPENSA PULLOUT DOUBLE SIDED

Flowsell™ PullOut TrayShelves or SlipShelves on a Double Sided Gondola.

	Post Height	305	Depth (Overall)	505
	2260mm	740mm	405	940mm
				1140mm
	1 Bay	Width	3 Bay	4 Bay
		2 Bay		
System 600	635mm	1236mm	1840mm	2440mm
Medications *	150	300	450	600
System 915	950mm	1866mm	2784mm	3700mm
Medications *	220	440	660	880

\* Standard sixteen PullOut TrayShelves or SlipShelves

### DISPENSA PULLOUT CUPBOARD

The Flowsell™ PullOut TrayShelf or SlipShelf can be fitted on Wall Stripping to the back of a new or existing cupboard.

Cupboard Height	305	Cupboard Depth (Internal)	405	505
Optional	355mm	455mm	555mm	
		Cupboard Width (Internal) 1 Bay		
System 600 Medications *		615mm	75	
System 915 Medications *		930mm	110	

\*Standard eight PullOut TrayShelves or SlipShelves

### DISPENSA PULLOUT WALL STRIPPING

PullOut TrayShelves or SlipShelves can be installed on walls in the Hospital Pharmacy or Medication Rooms on Single and Double Wall Stripping.

	Height	Depth from the wall			
		305	405	505	
Optional	350mm	450mm	550mm		
		Width			
		1 Bay	2 Bay	3 Bay	4 Bay
System 600 Medications *	612mm	1220mm	1826mm	2435mm	
System 915 Medications *	927mm	1850mm	2770mm	3695mm	

### FLOWSELL™ TRAYSHELF OR SLIPSHELF SHELVING

The TrayShelf and SlipShelf use the same Shelf Front and FastFit Dividers as the PullOut Shelves, however, the shelves remain static on fixtures or multi-angle cantilever brackets that can be sloped if required.

	Wall Unit				Double Sided			
	Post	Depth			Post	Depth		
	Height	305	405	505	Height	305	405	505
	2260mm	388mm	488mm	588mm	2260mm	706mm	906mm	1106mm

System 600	635mm	1236mm	1840mm	2440mm	635mm	1236mm	1840mm	2440mm
Medications *	80	160	240	320	160	320	480	640
System 915	950mm	1866mm	2784mm	3700mm	950mm	1866mm	2784mm	3700mm
Medications **	115	230	340	460	230	460	680	920

\*Standard eight Cantilever TrayShelf or SlipShelves.

\*\*Standard sixteen Cantilever TrayShelf or SlipShelves.

### DISPENSA REAR LOAD CABINET

A melamine cabinet of TrayShelves, fixed by Support Pins to the side of the cabinet. Shelves slope forward so that clinical staff can dispense from the front as non-clinical staff stock the system from the rear.

#### Key Benefits:

- Lower cost
- Superior rotation
- Excellent workflow
- Refit or retrofit

	Cabinet Height	Depth of cabinet		
	2300mm	405	505	
		Width		
		1 Bay	2 Bay	3 Bay
		4 Bay		
System 600	730mm	1395mm	2060mm	2725mm
Medications *	90	180	270	360
System 915	1045mm	2025mm	3005mm	3985mm
Medications *	130	260	380	515

\*Standard nine Support TrayShelves

### FLOWSELL™ FLAT SHELF SYSTEMS

Flowsell™ has static fixtures that store medications on flat Cantilever TrayShelves, conventional Cantilever Flat Shelves or Wire Shelves. FastFit Dividers can be fitted to the Cantilever TrayShelf. The shelf management of a static Flat Shelf can be significantly improved by fitting Flowsell™ Mounting Strips and Product Dividers to the shelf.

**Use in Hospital Pharmacies and Medication Rooms for:**

- Bulk medications
- Bulk liquids
- Bulk storage

**Key Benefits:**

- Lower cost
- Easy height adjustment
- Improved effectiveness with companion products

### FLOWSELL™ FLAT OR WIRE SHELVING

Low cost heavy duty Cantilever Flat Shelves or Wire Shelves can be fitted to Single Sided Wall Units or Double Sided Gondolas.

	Post				Wall Unit				Post				Double Sided			
	Height	305	405	505	Height	305	405	505	Height	305	405	505	Height	305	405	505

	115	230	340	460	230	460	680	920								

\*Standard eight Cantilever Flat or Wire shelves

\*\*Standard sixteen Flat or Wire Shelves

### BROKEN PACK TRAY

A small tub to store blister trays and tablet sachets from opened medication packs. Positioned at the front of the row to organise loose components from broken medication packs.

Height	Width	Depth
68mm	78mm	47mm

### PARTITION TRAY WITH PARTITION TRAY DIVIDERS

Increases the capacity of any shelf by increasing the number of items stored in a row. Ideal for storing small tubes or vials of creams and ointments or for multiple strengths of a medication.

System	Height	Width	Depth
300	90mm	117mm	300mm
400	90mm	117mm	400mm

### GRAVITY ROLLER

The Gravity Roller is an inexpensive way to keep gravity fed blister packs upright by adding weight to the rear of a row of medication packs.

Height	Width
33mm	40mm

### ROW DIVIDER

Clips onto a FastFit Divider to divide the row into segments. Ideal to store medications with multiple strengths in a row. Also, to simply store more than one medication in a row.

Height	Width
68mm	40mm or 80mm

### FLAT DATA STRIP

Ticket stripping with an adhesive back for a 26mm barcode ticket for a flat shelf.

Height	Width
30mm	600mm or 915mm

### FRONT ANGLE DATA STRIP

Ticket stripping with an adhesive back for a 26mm barcode ticket for an angled shelf.

Height	Width	Angle
31mm	600mm or 915mm	20°

### MOUNTING STRIP

An elongated profile attached by double sided tape to the front and/or rear of a shelf to clip Product Dividers

Height	Length
5mm	914mm

### MOUNTING RISER

An elongated profile with a front barrier to stop product falling off a sloping shelf. Attached at the base by double sided tape. Product Dividers can also be fitted to Mounting Risers.

Height	Length
40mm	914mm
75mm	914mm

### SPRING PUSHER

The Spring Pusher uses a clock spring to self-feed narrow or unstable packs on a shelf.

Height	Length
60mm	300mm – 600mm
130mm	300mm – 600mm

### PRODUCT DIVIDER

Flowsell™ retrofit Product Dividers clip to either a Mounting Strip or Mounting Riser at the front of the shelf. Break off points every 25mm have a hook to clip at the rear to a second Mounting Strip.

Height	Length
60mm	150mm – 400mm*
120mm	150mm – 400mm*
60mm	400mm – 600mm*
120mm	400mm – 600mm*

### BASE PULLOUT GONDOLA DRAWER

A pullout metal drawer that slides on drawer runners at the bottom of a Single Sided Wall Unit or Double Sided Gondola.

System	Height	Width	Depth
600	170mm	560mm	305mm or 405mm
915	170mm	872mm	305mm or 405mm

### PULLOUT GONDOLA DRAWER

A similar pullout metal drawer, fitted to a gondola at any height above the base, between any Flowsell™ shelf.

System	Height	Width	Depth
600	200mm	590mm	305mm, 405mm or 505mm
915	200mm	905mm	305mm, 405mm or 505mm

### FLOWSELL™ DUALDRAWER

A powder coated metal drawer with two elongated compartments. Divided back to front by DualDrawer Dividers that are easy to adjust. The melamine Drawer Fronts can be colour matched to any Laminex™ or Pantone™ colour. Each Drawer Front has a transparent acrylic window to identify medications in the drawer. DualDrawers open on quality German engineered roller drawer runners.

#### Use in Hospital Pharmacies and Medication Rooms for

- Capsules
- Tablets
- Ointments
- Pessaries
- Small vials

#### Key Benefits:

- Highest capacity
- Compact space
- Improved workflows

Medications/Drawer	
450mm	12 to 13
600mm	15 to 16
915mm	20 to 22

### READY TO GO MEDICATION CABINETS

Flowsell™ supply a versatile range of Medication Cabinets. Each Cabinet is equipped to take either the Flowsell™ PullOut Shelf, Flat Shelf, fixed Wire Mesh Baskets or PullOut Wire Baskets

All System 600 Medication Cabinets can have either Slam Locks and Punch Panels or 3-Point Key Locks and double doors. System 915 Medication Cabinets have only 3-Point Key Locks for security. All Medication Cabinets are available with clear doors on request.

**For any medication room, ward or hospital location:**

- Restricted medications
- Resuscitation drugs
- After hours medications
- Records

**Key Benefits**

- Security
- Retrofit
- Compact storage
- Relocatable
- Multiple Use

### BENCH MEDICATION CABINET – 978-600

A powder coated steel cabinet for under a bench or on the wall above a bench when mounted on a wall attachment. Uniquely designed to fit all Flowsell™ medication shelving and wire baskets.

Bench Medication Cabinet System 600		Medication Options Fitting the Cabinet

## DEVELOP YOUR OWN UNIQUE WORK SPACE

Flowsell™ has developed a modular joinery system that can be customised to meet the dispensary needs of any hospital, medical centre, nursing home or retail pharmacy. A system to improve workflows and maximise the effective use of space.

**This Flowsell™ cabinetry system can be configured to include:**

- Work Stations - seated or standing
- Medication Drawers with self-closing drawer runners
- PullOut Wire Baskets with Dividers
- PullOut Medication Shelving
- Cabinets with Melamine Shelves
- Cabinets with PullOut Shelves for printers
- Cabinet with PullOut rubbish bin

All below a continuous melamine bench top.

The system is designed with colour matched trims and stylish finishes to impart a professional appearance to create a pleasant and efficient work space.

## DEVELOP YOUR OWN UNIQUE WORK SPACE

Choose your preferred combination from the following systems:-

### WORK STATIONS SEATED OR STANDING

- Seated Open Work Space 700mm high
- Standing 1M high
- Bench Depth 520mm or 720mm

### PULLOUT MEDICATION SHELVES

Flowsell™ TrayShelves or SlipShelves

- Shelf Depth 405mm or 505mm
- Shelf Width 600mm or 915mm

### MEDICATION DRAWER CABINETS

Fitted Flowsell™ DualDrawers or Drawers

- On self-closing drawer runners
- Drawer Height 125mm or 250mm
- Drawer Depth 450mm or 600mm
- Drawer Width 380mm

### PULLOUT OR FIXED MELAMINE SHELVES

- Fixed for general storage, books or records and PullOut for Printers
- Width 600mm or 915mm

### PULLOUT WIRE BASKET CABINETS

- Fitted Cleanstor® Wire Baskets
- Basket Height 140mm or 280mm
- Basket Width 575mm
- Drawer Runners Light Duty or Heavy Duty

### PULLOUT RUBBISH BIN

- Height 580mm
- Width 368mm
- Depth 515mm

CONTACT FLOWSSELL™ FOR A FREE:-  
CONSULTATION FLOOR PLAN & QUOTE

### FLOWSELL™ WALL UNIT WORKSTATIONS

A custom designed Wall Unit or Double Sided Gondola with a strong standing (1M) or sitting (700mm) Work Bench.

The following can be fitted to the gondola above the bench:

- PullOut Trayshelves or SlipShelves
- Cantilever Flat or Wire Shelves
- Wire Mesh Baskets

The following can be fitted to the gondola below the bench:

- UnderBench Drawer Cabinet
- PullOut TrayShelves
- PullOut Gondola Drawers
- PullOut Wire Baskets

Use for any Pharmacy or Ward for:

- Extra bench space
- Additional storage

Key Benefits:

- Customised workstation
- Flexible floor plans
- Multiple fixtures
- Retrofit

	Workstation		Bench Height	
	Post Height	Desk Depth	700mm or 1m	
	2260mm	770mm		
Bench Width - Joined Bays				
System	1 Bay	2 Bays	3 Bays	4 Bays
600	635mm	1236mm	1840mm	2440mm
915	950mm	1866mm	2784mm	3700mm

### WIRE MESH BASKETS

Flowcell™ has designed the Cleanstor® range of wire baskets that includes wire basket cabinets and racks for improved infection control and hygiene.

All Wire Mesh Baskets have small spaces between wires so small packs and vials do not fall through the basket:

**MB1** Wire Mesh Basket 150/105 **MB2** Wire Mesh Basket 215/105 **MB3** Wire Mesh Basket 270/415 **MB4** Wire Mesh Basket 350/415

Baskets MB3 and MB4 have Wire Dividers to segment the baskets:

**MD3** Basket Divider 170/270  
**MD4** Basket Divider 200/350

#### Use in Medication and Utility Rooms for:

- Cannulas
- Bungs
- Needles
- Syringes
- Swabs
- Red Caps

#### Key Benefits:

- Superior hygiene
- Easy to install
- Quick to adjust

	Cleanstor® Wire Mesh Baskets			
	MB1	MB2	MB3	MB4
Height	84mm	84mm	160mm	200mm
Width	105mm	105mm	415mm	415mm
Depth	150mm	215mm	263mm	354mm

	Corresponding Basket Divider	
	MD3	MD4
Height	154mm	190mm
Length	239mm	330mm

### CLEANSTOR® MESH BASKETS ON BASKET STRIPPING

Typically mesh baskets have been fitted to walls on louvre or bin panels permanently fixed to the walls. They collect dust and do not allow walls to be cleaned.

Cleanstor® Basket Stripping is a white powder coated strip attached to the wall into which baskets are clipped. This allows baskets and the wall to be easily and regularly cleaned.

Basket Stripping	1800
Length	1800mm
Width	32mm
Depth	16mm

### CLEANSTOR® MESH BASKETS ON LOUVRE PANELS

As many hospitals already have louvre panels on the walls of Medications Rooms, Cleanstor® Wire Mesh Baskets also fit onto existing or new louvre panels.

Louvre Panel	
Height	Width
914mm	457mm

### CLEANSTOR® MESH BASKETS ON GONDOLAS

All Wire Mesh Baskets can also be fitted to Flowsell™ Single or Double Sided Gondolas that have Punched Panels. This is a novel way to store medications and surgical consumables together on the one fixture or gondola.

GONDOLA 600			
Baskets Per Punched Panel 600mm x 900mm

56	56	10	8

### CLEANSTOR® WIRE BASKET SOLUTIONS FOR FLUIDS AND CONSUMABLES

Flowcell™ has another range of Cleanstor® Wire Baskets uniquely designed to slide out on roller drawer runners. Cleanstor® PullOut Wire Baskets are so flexible they can be fitted in cupboards, PullOut Basket Gondolas, Underbench PullOut Basket Cabinets or freestanding Basket Cabinets.

**WB1** Wire Basket 140/560  
**WB2** Wire Basket 280/560

Wire Basket **WB1** can be divided two ways.  
**WB2** is segmented only back to front

**WD1 2-Way** Basket Divider 2W 140/400 **WD1 4-Way** Basket Divider 4W 140/400 **WD2 2-Way** Basket Divider 280/400

Drawer runners have two load ratings

**Light Duty 40 kgs used for:**

- Cannulas
- Catheters
- Bandages
- Connectors
- Airways
- Stationery etc.

**Heavy Duty 100 kgs used for:**

- IV Fluid Therapy

**Key Benefits:**

- Easy stocking
- Fast access
- Ergonomic handling
- Strong and robust
- Hygienic

### CLEANSTOR® PULLOUT WIRE BASKETS FOR CUPBOARDS

Cleanstor® Wire Baskets on pullout drawer runners can be fitted to new or existing cupboards. Fluids or surgical items can be destocked from cardboard cartons and stored in Cleanstor® Wire Baskets in a cupboard.

Cupboard Height	Minimum Internal Cupboard Depth	Standard Internal Cabinet Width
Optional	420mm	575mm

### CLEANSTOR® PULLOUT BASKET GONDOLA

Flowcell™ has developed a unique frame to pullout Cleanstor® Wire Baskets from a 600mm wide Wall Unit or Double Sided Gondola. Any combination of the Wire Baskets WB1 or WB2 can be fitted to the gondola on either heavy duty or light duty drawer runners. Flat or Pullout Shelves can be fitted above the baskets for medications.

Gondola Dimensions		Cleanstor® Wire Basket Combinations	
Height	2260mm	Model	
Width	635mm	BG1	8WB1
Depth	485mm	BG2	10WB1
		BG3	4WB2
		BG4	5WB2

### CLEANSTOR® UNDERBENCH PULLOUT BASKET CABINET

Three standard UnderBench Cabinets fit under standing benches of 1 metre and 900mm and a sitting bench of 700mm. However, UnderBench Cabinets can be custom made to suit any bench. All UnderBench PullOut Basket Cabinets have adjustable feet and all baskets can have light duty or heavy duty drawer runners.

Frames can be custom made to fit under benches with the following heights.

#### UB8 – BENCH 1M HIGH

**Package A** 5 x WB1 Wire Baskets

**Package B** 3 x WB1 Wire Baskets and 1 WB2 Wire Basket

**Package C** 1 x WB1 Wire Basket and 2 WB2 Wire Basket

#### UB6 – BENCH 900MM HIGH

**Package D** 4 x WB1 Wire Baskets

**Package E** 2 x WB1 Wire Baskets and 1 WB2 Wire Basket

#### UB5 – SITTING BENCH 700MM HIGH

**Package F** 3 x WB1 Wire Baskets

**Package G** 1 x WB1 Wire Basket and 1 WB2 Wire Basket

#### Other Options

- Melamine Panel Kit
- Roller Shutter/Lock
- Wall Attachment

### CLEANSTOR® FRIDGE WIRE BASKET

An elongated Wire Basket with a clear Basket Divider that is easy to remove from the refrigerator and take to the dispensing bench.

**Key Benefits:**

- Good air circulation
- Compact storage
- Highly accessible

	Fridge Wire Basket	Partition Tray Divider
	RB1	RD1
Height	98mm	85mm
Width	180mm	180mm
Depth	400mm	

### CLEANSTOR® LARGE WIRE BASKETS

A bigger Wire Basket is often required to store large surgical products or equipment. Flowcell™ has two large baskets with rear brackets that clip into slots in the upright posts of a Single or Double Sided Gondola. Baskets can be easily adjusted without tools.

**Use for Utility Rooms and Bulk Stores for:**

- Surgical drapes
- Catheters
- Bandages
- Excess stock

**Key Benefits:**

- High capacity
- Flexible positioning
- Easy to adjust

Cleanstor® Large Wire Baskets		
	LB1	LB2
Height	280mm	280mm
Width	874mm	874mm
Depth	395mm	492mm
Corresponding Basket Divider		
	LD1	LD2
Height	269mm	269mm
Length	364mm	466mm

### CLEANSTOR® LARGE WIRE BASKETS ON GONDOLAS

When large baskets are fitted to Wall Units or Double Sided Gondolas they are ideal for bulk storage. Gondolas can be shifted as storage requirements change.

Gondola System	Post Height	Depth		Width
915/405	2260mm	507mm	1 Bay	950mm
915/505	2260mm	607mm	2 Bays	1866mm
Baskets per Gondola	LB1	3 to 5	3 Bays	2784mm
	LB2	3 to 5	4 Bays	3700mm

### CLEANSTOR® WIRE RACK SYSTEM

Static shelving has conventionally been chrome wire shelves fitted to upright posts by plastic sleeves.

These shelves are difficult to adjust and can only be re-positioned with a rubber mallet. Flowsell™ has developed a rack shelf system in which the shelf, called the RackShelf, can be adjusted by any nurse in an instant.

#### Use for Operating

**Theatres,  
Utility Rooms and Bulk  
Stores for:**

- Theatre supplies
- Medical equipment
- Anaesthetic supplies
- Prosthesis boxes
- Fluids in cartons

#### Key Benefits:

- Superior adjustment
- Strong and robust
- Quality chrome plated
- Versatile attachments

### CLEANSTOR® WIRE RACK

This rack system is strong and robust. Each RackShelf can be quickly and easily adjusted in height without tools. Bays can be joined together or placed back to back.

**The Cleanstor® Wire Rack is a space efficient system that has:**

- 3 Widths** 600mm, 900mm and 1500mm
- 3 Depths** 405mm, 505mm and 605mm

The flat RackShelf can be customised to suit the storage needs of any product using the following accessory items:

- 3 Clip-on Front Rails** 40mm, 100mm or 200mm high
- 3 Clip-on Rear Rails** 40mm, 100mm or 200mm high
- 4 Clip-on Shelf Dividers** 60mm, 100mm, 120mm or 200mm high

### WARD DELIVERY TROLLEYS

A pick and pack trolley to deliver medications, fluids or surgical products to hospital wards. The trolley has two large plastic crates on pull out trays and one crate on top of the trolley. Each crate has a security lid to hide medications in public areas. As the trays slide out toward the operator it makes it fast and easy to pick and pack goods into and out of the crates. Each trolley has two swivel wheels at the front and two brake/swivel wheels at the rear.

**Key Benefit:**

- High capacity
- Easy to operate
- Manoeuvrable
- High security

	Trolley	Plastic Crate and Lid	
	Dimensions	Small	Large
Height	1090mm	180mm	330mm
Width	508mm	384mm	384mm
Length	1080mm	578mm	578mm

### POWERLIFT FLUIDS TROLLEY

A robust trolley to deliver fluids to the wards without bending and lifting to reduce injury. Raising the platform is as easy as pressing a button. The heavy duty battery is capable of up to 150 lifts. The trolley is easy to manoeuvre on four swivel castors.

**Key Benefits:**

- OH&S
- Easy lifting
- Robust

Ward Trolley Dimensions		Specifications	
Height	845mm	Lift Capacity	250kgs
Width	480mm	Lift Range	380mm - 845mm
Depth	895mm	Wheel Size	150mm
		Weight	43kgs

### BATTERY DRIVEN POWERLIFT FLUIDS TROLLEY

A battery operated trolley that combines power drive scissor lift with power drive motion. The power lift having variable speed, reversing beeper and emergency stop. The platform lift range reaches from 450mm to a high 1600mm. This is a strong and robust trolley.

**Key Benefits:**

- Effortless operation
- Ergonomic
- High capacity

Ward Trolley Dimensions		Specifications	
Height	1600mm	Lift Capacity	450kgs
Width	600mm	Lift Range	450mm - 1600mm
Depth	1100mm	Wheel Size	250/125mm

We make it easy for you to choose the system that will work for you. With Flowsell™ Dispensa and Cleanstor® systems we offer quality storage equipment to give you improved workflows and hygiene control.

All Dispensa and Cleanstor® products are manufactured to ISO standard 9001 and are backed by a five year warranty. We provide a full service which includes consultation, hospital plans, supply and national installation. Flowsell™ is an Australian owned supplier of quality equipment for the storage and efficient dispensing of medications and surgical consumables.
